EXPERIENCE

Software Developer – Fuvion Techsys | Full-time | Remote | March 2025 - Present

Leading the design and development of mobile and web applications with a focus on performance, scalability and maintainability. Implemented CI/CD pipelines using GitHub Actions, integrated Docker for containerized deployments, explored Kafka for data streaming and contributed interactive data visualizations using D3.js to enhance user insights and analytics.

Trainee Software Developer – Fuvion Techsys | Full-time | Remote | Sept 2024 - March 2025

Gained hands-on experience developing mobile applications using Flutter and Firebase and web applications using the MERN stack. Built responsive, scalable solutions, collaborated with cross-functional teams, optimized workflows and contributed to feature development, testing and bug fixes to ensure high-quality, maintainable and user-friendly software.

MERN Stack Developer – The Entrepreneurship Network | Internship | Remote | June 2024 - Sept 2024

Led full-stack projects including TEN AI Consulting, AI Resume Builder, TEN Marketing, TEN Mentor Site and TEN Employee Management. Designed backend routes, schemas and databases, enhanced frontend components, fixed bugs, optimized deployments and collaborated with teams to deliver robust, responsive and user-centric web applications.

PROJECTS

Jobstock – A Job Portal Application and Website ([Live App](#), [Live Site](#))
